

The logo consists of the letters 'E', 'x', and 'E' in a bold, yellow, sans-serif font. The 'x' is smaller and positioned between the two 'E's.

Evolutionary Biology in Ecological Contexts

Evolution x Ecology Conference in Cornwall

ExE is a 3-day conference aimed at evolutionary ecologists from around the world, hosted by the University of Exeter in beautiful Cornwall.

ExE provides a friendly and inclusive platform for all career-stages to show-case cutting-edge research at the interface of evolution and ecology.

When?

29 June (evening) to 2 July 2026

Where?

Cornwall Campus of the University of Exeter in Penryn, United Kingdom

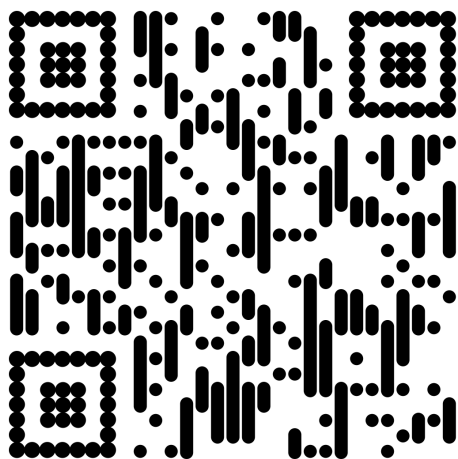

We aim to keep the registration fee low, offer affordable on-campus accommodation, and support those with caring responsibilities.

What to expect?

Exciting plenary speakers and sessions on a range of topics.

For example: Adaptation to environmental change, Predicting trait evolution, Host-pathogen ecology and evolution, and more!

Also: Mid-conference excursion and conference dinner, optional workshops on July 3.

Organisation: Erik Postma (e.postma@exeter.ac.uk), Alastair Wilson, Barbara Tschirren, Ben Longdon, Mark Hanson *et al.*
