

In the first instance for queries around intervention delivery please email **Recovered-Support@exeter.ac.uk**. This is monitored Mon-Fri and the messages will be checked daily. Many members of the team are part time on this study and therefore will not always be able to respond immediately. If you leave an answerphone message or send an email to an individual, you will receive a response as soon as possible. **If your query requires a more urgent response, please work your way down the phone tree until you are able to speak to somebody. Any concern about the health, safety or wellbeing of a participant should be escalated immediately through your usual procedure.**
